**PHASE II SITE CHARACTERIZATION REPORT
HAINES SAWMILL SITE**

April 2000

This is a final, Phase II Site Characterization Report. The findings of the Phase I Environmental Site Assessment (Access Consulting Group, 1999b) and preliminary finding of the Phase II Site Assessments (Access Consulting Group, 1999a) were used in conjunction with comments and suggestions by the Alaska Department of Environmental Conservation (ADEC) to finalize this document. The term "Site Characterization Report" has been adopted for this report in keeping with the protocols used in the State of Alaska where the site is situated.

As the site is located within the State of Alaska, imperial units of measurement have been used.
